

Curriculum vitae

Hans Peter Wessel

Address:

F. Hoffmann-La Roche Ltd.
CH-4070 Basel
Switzerland
Tel. +41-61-688 21 73
hans_p.wessel@roche.com

Education

Sept. 1979
Nov. 1981

Diploma in Organic Chemistry, University of Hamburg
Graduation to Dr. rer. nat., **University of Hamburg**,
Thesis on "*Investigations on the Synthesis of Olivin Analogues*"
in the group of Prof. Dr. J. Thiem

Positions

Dec. 1981 - Aug. 1983

Research Associate in the Division of Biological Sciences of the
National Research Council of Canada, Ottawa, Ontario
Studies in the group of Dr. D. R. Bundle on syntheses of artificial
carbohydrate antigens to study carbohydrate/ protein interactions
with monoclonal antibodies

since Oct. 1983

Employee of **F.Hoffmann-La Roche Ltd** in Basel, Switzerland
Pharma Research

1988 - 1990

Coordinator of the Department of Cardiovascular Diseases

Jan. 1989

Senior Scientist

July 1991

Scientific Specialist

July 2000

Holder of Procuration

July 2001

Promotion to Directorate

Present main function

Section Head Infrastructure and Administration (Discovery
Chemistry)

Main research interests

Medicinal chemistry, in particular carbohydrates in medicinal
chemistry; multicomponent reactions
Heparin/ heparinoids, serine proteases, metalloproteinases, GPCRs.

Author or coauthor of ca. 100 publications and patent applications

Other professional activities

1994-96

Editorial Board Member of the *Journal of Carbohydrate
Chemistry*

since 1996

Regional Editor for the *Journal of Carbohydrate Chemistry*

since 2002

Member of the Presiding Committee of the Basel Chemical Society

2008/9

President of the Basel Chemical Society
