

- Michel PHILIPPE
- Studies : Biochemistry and organic chemistry
- Ph. D., 1984 : New sugar derivatives in the field of antibacterial compounds
- Joined L'OREAL R&D in 1984
- Green Chemistry Manager
- E-Mail : [MPHILIPPE@rd.loreal.com](mailto:MPHILIPPE@rd.loreal.com)
  
- Main fields of research
  - Synthetic chemistry and biocatalysis of mono and polysaccharides (amphiphilic derivatives, surfactants).
  - Synthetic chemistry and biocatalysis of lipids (sphingolipids and ceramides).
  - Development of new green processes using renewable raw materials from plants.
  
- 130 patents, 25 publications.
